CORPORATE PROFILE
企業簡介

China Lesso Group Holdings Limited is a leading large-scale industrial group that manufactures building materials and interior decoration products in mainland China. It is listed on the main board of The Stock Exchange of Hong Kong Limited (stock name: China Lesso, stock code: 2128). China Lesso is one of the constituent stocks of the Hang Seng Composite Index – MidCap and is covered by Hong Kong Stock Exchange's Stock Connect. The Group provides over 10,000 types of quality products, including plastic piping system, sanitary ware products, integrated kitchens, systems of doors and windows, decorative plates, fire-fighting equipment, and sanitary materials, etc. They are widely applied to fields such as interior decoration, water supply, drainage, power supply and telecommunications, gas transmission, agriculture, aquaculture, floor heating and fire services. The Group is positioned as one of the manufacturers who offer the most comprehensive range of building materials and interior decoration products in China.

中國聯塑集團控股有限公司是中國內地領先的大型建材家居產業集團，於香港聯合交易所有限公司主板上市（股票簡稱：中國聯塑，股份代號：2128）。中國聯塑是恒生綜合指數成份股中型股之一，並被獲納入為港股通股份。本集團提供過萬種優質產品，涵蓋塑料管道系統、水暖衛浴產品、整體廚房、門窗系統、裝飾板材、消防器材及衛生材料等類別，並廣泛應用於家居裝修、給水、排水、電力供應及通訊、燃氣輸送、農用、水產養殖業、地暖和消防等領域，為中國建材家居領域產品體系最為齊全的生產商之一。

The Group has 25 advanced production bases in 16 provinces, namely Guangdong, Guizhou, Sichuan, Hubei, Jiangsu, Anhui, Zhejiang, Henan, Hebei, Jilin, Shaanxi, Xinjiang, Hainan, Yunnan, Shandong and Hunan. The Group has established a nationwide sales network and has also developed long-term strategic partnerships with 2,276 independent and exclusive first-tier distributors to provide quality and comprehensive products as well as professional services for customers.

本集團於廣東、貴州、四川、湖北、江蘇、安徽、浙江、河南、河北、吉林、陝西、新疆、海南、雲南、山東及湖南等16個省份擁有25個先進生產基地。本集團擁有覆蓋全國的分銷網絡，與2,276名的獨立獨家一級經銷商建立長期戰略合作關係，為全國客戶提供優質豐富的產品和專業的服務。

CHAIRMAN'S STATEMENT

ô © S ã

China's economic growth continued to slow down in 2019 amid global instability. The central government adopted measures to cool the country's overheated property market under its principle that "houses are for people to live in but not for speculation", thus subjecting the market to mounting downward pressure. China's ongoing urbanisation stimulates both economic growth and unlocks the huge potential of its domestic demand. The Chinese government has invested in a number of large-scale municipal engineering works and urban infrastructure projects as it implements the policies on energy conservation and environmental protection such as "Switching over from Coal to Gas" and "Action Plan for Prevention and Control of Water Pollution". Such projects include the construction of infrastructure for using clean energy for heating in various regions, sewage control planning in major river basins, sewage and pollution control in rural areas and the plan for seawater desalination works around islands. Furthermore, Chinese companies have been cooperating with countries which are covered by China's "Belt and Road Initiative" in oil and gas projects. This can also stimulate the demand for pipe fittings and pipe products.

As a leading large-scale industrial group that manufactures building materials and interior decoration products in mainland China, China Lesso capitalises on the Chinese government's favourable policies by fully developing all of its business segments to meet the strong demand of the market. Despite the downward pressure on the China's economy, the Group achieved sustainable growth in sales revenue and profit and further improved its financial performances during the reporting period with its leading industry position, strong brand and excellent product quality. The Group's revenue increased by 11.0% to RMB26,345 million in 2019 from RMB23,734 million in 2018. Gross profit rose by 21.0% to RMB7,537 million, and profit attributable to owners of the Company grew by 21.4% to RMB3,025 million. The Board proposed a final dividend of HK28 cents per share for the year ended 31 December 2019.

In 2019, Southern China continued to contribute the majority of the Group's revenue. The Group further developed the market of Southern China, thus reinforcing its leading market position there. Meanwhile, it actively expanded the market for plastic pipes in other regions of the country and continued to optimise its product portfolio to increase its market share and boost its overall business growth. The Group continued to increase the levels of automatic production and smart production. Through its effective strategy for procurement, the Group reduced the pressure of the hike in prices of raw materials and production costs, aiming to maximise the benefits of economies of scale.

BOARD AND GENERAL MEETINGS

For the year ended 31 December 2019, the Board convened ten meetings to review operating performance, funding requirement and recent market conditions. The Board also considered and approved the Group's overall strategy, audited annual results for the year ended 31 December 2018 and reviewed interim results for the six months ended 30 June 2019.

The chairman of the Board and the chairman of the audit committee, the nomination committee and the remuneration committee, attended the AGM of the Company held on 27 May 2019.

The table below sets out the attendance of all members of the Board at the meetings held in 2019:

BOARD AND GENERAL MEETINGS (Continued)

The Company gives proper notices of Board meetings to the directors and the procedure of Board meetings is in compliance with the Articles and the relevant rules and regulations. The agenda and the relevant documents will be provided to all directors in a timely manner. The chairman will give a proper briefing to all directors on items to be put forward at a Board meeting. To ensure compliance with the procedure of Board meetings and all applicable rules and regulations, all directors may gain a full understanding of all relevant data in a timely manner and may receive advice and services from the company secretary. The minutes of Board meetings are kept by the company secretary and are available for inspection by the directors and the auditor of the Company.

TRAINING AND SUPPORT FOR DIRECTORS

The directors are encouraged to participate in continuous professional development to develop and refresh their knowledge and skills. The Company would provide a comprehensive induction package covering the summary of the responsibilities and obligations of a director of a Hong Kong listed company, the Company's constitutional documents and the Guides on Directors' Duties issued by the Hong Kong Companies Registry to each newly appointed director to ensure he/she to have sufficient awareness of good corporate governance practices.

TRAINING AND SUPPORT FOR DIRECTORS (Continued)

Apart from the above training offered by the Company, based on the training records provided to the Company by the directors, the directors also participated in the following trainings during 2019:

Directors	Type of trainings
Executive directors	
Wong Luen Hei	A,C
Zuo Manlun	A,C
Zuo Xiaoping	A,C
Lai Zhiqiang	A,C
Kong Zhaocong	A,C
Chen Guonan	A,C
Lin Shaoquan	A,C
Huang Guirong	A,C
Luo Jianfeng	A,C
Lin Dewei	A,C
Independent non-executive directors	
Wong Kwok Ho Jonathan	A,C
Cheung Man Yu	A,C
Lan Fang	A,B,C
Tao Zhigang	A,B,C
Cheng Dickson	A,C

Note:

A: attending seminars and/or conferences and/or forums

B: delivering talks at seminars and/or conferences and/or forums

C: reading information, newspapers, journals and materials relating to the responsibilities of directors, economy, fiscal, financial, investments and business of the Company

BOARD (Continued)

COMPANY SECRETARY

The company secretary reports to the Board so as to ensure compliance with the procedures of the Board meeting and ensure the Board is fully briefed on all legislations, regulations and corporate governance development and has considered their opinions when making a decision. The company secretary is also directly responsible for the Group's compliance with its continuing obligations under the Listing Rules, Hong Kong Codes on Takeovers and Mergers and Share Buy-backs, Companies Ordinance, SFO and other applicable laws, rules and regulations.

During the year ended 31 December 2019, the company secretary has received no less than 15 hours of relevant professional training to refresh his knowledge and skills.

INDEMNIFICATION OF DIRECTORS AND OFFICERS

The directors and officers are indemnified under a directors' and officers' liability insurance against any liability incurred by them in the discharge of their duties while holding office as the directors and officers of the Company. The directors and officers shall not be indemnified where there is any fraud, breach of duty or breach of trust proven against them.

In accordance with the Articles, subject to the Cayman Island Companies Law (2013 Revision, as amended from time to time), every director, auditor or other officer of the Company shall be entitled to be indemnified out of the assets of the Company against all losses or liabilities incurred or sustained by him as a director, auditor or other officer of the Company in defending any proceedings, whether civil or criminal, in which judgment is given in his favour, or in which he is acquitted.

BOARD COMMITTEES (Continued)

REMUNERATION COMMITTEE

The Remuneration Committee comprises five members, namely Dr. Tao Zhigang (chairman of the Remuneration Committee and independent non-executive director), Mr. Wong Luen Hei (executive director), Mr. Zuo Manlun (executive director), Mr. Wong Kwok Ho Jonathan and Mr. Cheung Man Yu (both of them are independent non-executive directors).

The Remuneration Committee is mainly responsible for studying and formulating the Company's remuneration policy and incentive mechanism and is responsible for formulating the standards for the appraisal of the Company's directors and senior management and conducting appraisals.

The Remuneration Committee has the delegated responsibility to determine the specific remuneration packages of all directors and senior management. In order to determine the level of remuneration and fees paid to members of the Board, market rates and factors such as each director's workload, responsibility and job complexity are taken into account. The following factors are considered when determining the remuneration packages of directors and senior management:

- CVTJOFTT SFRVJSFNFOUT
- JOEJWJEVBM QFSGPSNBODF BOE DPOUSJCVUJPOT
- DPNQBOZ QFSGPSNBODF BOE QSPGJUBCJMJUZ

DIVIDENDS POLICY

The declaration, payment and amount of dividends will be subject to the Company's discretion. Dividends may be paid only out of its distributable reserves as permitted under the relevant laws. The Company has adopted a general dividend policy of declaring and paying dividends on a semi-annual basis of around 30% of its profit attributable to the owners of the Company. The Board would review the Company's dividend policy from time to time considering factors including but not limited to debt covenants, capital investment and business plan.

RELATIONSHIP WITH INVESTORS AND THE SHAREHOLDERS

~ ³ k ¿ p Y ë ·

The Company endeavours to maintain a high level of transparency in communication with the Shareholders and investors in general. Communication between the Company and the Shareholders is conducted through various channels, including interim and annual reports, information published on the websites of the Stock Exchange and the Company and general meetings. The Company encourages the Shareholders to attend the Company's general meetings. The Group's financial and other information is also published on the website of the Stock Exchange (www.hkexnews.hk) and the website of the Company (www.lesso.com).

MANAGEMENT DISCUSSION AND ANALYSIS

M # 4 À ¿ ±

CORPORATE OVERVIEW

China Lesso is a leading large-scale industrial group which produces building materials and interior decoration products in mainland China. The Group established 25 advanced production bases in 16 provinces within China and foreign countries to support a nationwide sales network. The Group strives to refine its strategic planning and sales network, offering a comprehensive range of diverse industrial products and quality sales services.

The Group continued to reinforce its leading position in the Chinese market, especially in Southern China, on the strength of its quality products, advanced technologies in research and development and a wide sales network. In recent years, the Group has been actively developing business in other local markets and overseas markets. While steadily upgrading the core business of plastic piping systems, the Group has also actively opened up building materials and interior decoration products, environmental protection and specialty market platform businesses, thereby creating long-term business synergy to the overall business of the Group, and providing customers with convenient and efficient solutions.

The brand name LESSO of China Lesso represents the key elements of the Group's corporate culture: "Link, Easiness, Safety, Sharing and Openness", and demonstrates its commitment to "Creating a Relaxing Life for Dwellers". In 2019, China Lesso continued to receive national and industrial awards which consolidated its strong brand reputation and leading position in the industry, including "70 Brands of the 70th Anniversary of New China", "China's Top 500 Companies in Terms of Brand Value", "2019's Interior Decoration Brand in terms of Investment Value", "Top 500 Chinese Private Owned Enterprises", "National Brand of Water Supply and Drainage Industry and Outstanding Contribution Award", "Top 10 Companies Award in China's Light Industry and Plastics Industry". The Group's leading brand position reflects its strong capabilities to conduct product research and development and to ensure excellent product quality. PLASTIC PIPING SYSTEMS (Continued) ç Ø M 8 û U€ ƒ •

The Group continued to boost sales volume of plastic piping systems such that sales volume increased by 10.6%. In terms of product materials, sales volume of PVC products increased by 8.0% to 1,817,179 tonnes (2018: 1,682,949 tonnes) while that of non-PVC products increased by 19.6% to 580,685 tonnes (2018: 485,673 tonnes). Revenue from sales of PVC products increased by 8.0% to RMB14,748 million (2018: RMB13,660 million) while that of non-PVC products increased by 16.6% to RMB8,961 million (2018: RMB7,683 million).

The table below sets out the breakdown of revenue from plastic piping systems by region for 2019 and 2018:

h Œ1 • Ú 2019 Ë ¿ 2018 Ë ç Ø M 8 û U 8 ×] 2 ® Œ± Y ‹ j

Region ®	Revenue ×] 2019 RMB million [O Æõ ¬ ©	Revenue ×] 2018 RMB million [O Æõ ¬ ©	Change	% of revenue & ×] % 2019	% of revenue & ×] % 2018
Southern China 6 Ì	12,658	11,743	7.8%	53.4%	55.0%
Other than Southern China 6 Ì ø . ®	10,563	9,223	14.5%	44.5%	43.2%
Outside China • 7 ¤ .	488	377	29.2%	2.1%	1.8%
Total <	23,709	21,343	11.1%	100.0%	100.0%

The Group adopts a cost-plus pricing method. During the reporting period, the Group effectively controlled the costs of raw materials and production through economies of scale, bulk procurement and other measures, therefore the average cost of sales decreased by 1.8%. Due to increase in proportion of non-PVC products sales, the Group maintained the average selling price of its plastic piping systems at RMB9,887 per tonne (2018: RMB9,842 per tonne). The gross profit margin at the plastic piping systems business reached 28.9% (2018: 27.2%).

PLASTIC PIPING SYSTEMS (Continued)

The scope of applications of plastic pipes and pipe fittings had been extended because of the steady progress in China's plan for national development and the robust demand in the field of infrastructure construction. This, in turn, has generated more opportunities for business. The central government continues to invest heavily in the construction of Xiong'an New Area and other infrastructure projects, thus boosting the demand for plastic pipes and pipe fittings. As a market leader, the Group will strive to expand the scope of applications of plastic pipes and pipe fittings to increase product sales, thereby maintaining its market leadership. In January 2020, the Group signed a strategic cooperation agreement with Guangdong Academy of Agricultural Sciences to actively explore business opportunities in the agricultural sector and to further diversify its source of income. The collaboration between the two strong industry players will involve in-depth cooperation in various fields such as facility agriculture. They will provide customers with high-quality and professional modern facility agriculture solutions that encompass the facilities, construction, production, and after-sales service. This can promote the development of facility agriculture and agricultural modernization. Overall, the management is confident about the prospect of the plastic piping systems business and believes that it will continue to perform well.

BUILDING MATERIALS AND INTERIOR DECORATION PRODUCTS

In 2019, the Chinese government continued with various measures to regulate the property sector, thus increasing downward pressure on it. In response to an obvious sign of tightening policy, the overall growth of the real estate sector continued to slow down. Both the floor area sold and sales value declined. Affected by macroeconomic factors, the market for building materials and interior decoration products continued to experience downward pressure during the year. However, the change in the bulk purchasing model in real estate industry and the gradual rebound in the rate of completion of property projects in the second half of the year helped boost the sales of building materials and interior decoration products. This resulted in an increase in the number of new orders and an improvement in overall business performance. During the reporting period, the business segment maintained stable development and recorded a revenue of RMB1,519 million, accounting for 5.8% of the Group's total revenue.

BUSINESS REVIEW AND OUTLOOK (Continued)

8 « ¥ ¿ • Ð€ ƒ •

BUILDING MATERIALS AND INTERIOR DECORATION PRODUCTS (Continued)

In 2020, the Chinese government's regulation of the real estate sector may not be as tight as that in 2019. This can ease the downward pressure on the economy. The Group will actively seize the opportunities in the new mode of urbanisation and the redevelopment of old towns to boost revenue at its business of building materials and interior decoration products and increase the contribution of the business to the Group's total revenue. At the same time, the Group will further strengthen its relations with existing customers and actively engage new customers and increase sales revenue by providing diverse products. China's ongoing new mode of urbanisation will enable the Group's business of building materials and interior decoration products to achieve synergy with its businesses of other product lines. This will become a driving force behind the steady development of this business for the long term.

OTHER BUSINESSES

Environmental Protection Business

In recent years, the Chinese government has issued a series of environmental protection policies which bode well for the development of the environmental protection industry. Riding on this trend, the Group constantly expands the market for environmental protection. It capitalised on municipal projects in various fields, including those of sewerage, river treatment, soil restoration, utility tunnels, sponge city, installation of integrated water purifiers, thus tapping the growing demand for plastic pipes and pipe fittings. The Group has strived to create synergy between its environmental protection business and its plastic piping systems business for the long term. Through successful mergers and acquisitions, the Group aspires to establish itself as a one-stop integrated environmental service provider, providing customers with comprehensive services from environmental consulting, solutions design, project construction to environmental equipment manufacturing. During the reporting period, this business sustained to grow and recorded a revenue of RMB326 million. In the future, the Group will continue to enhance its own research and development capability while developing its existing environmental protection business steadily. For instance, it endeavours to develop a business of treating hazardous and solid wastes and actively explores opportunities for mergers and acquisitions so as to form new growth drivers.

EMPLOYEE

China Lesso recognises employees as one of its most important assets. In strict compliance with the applicable laws and regulations, the Group protects the legitimate rights and interests of its employees and fixes on its pay system based on the principles of legality, equity, fairness and encouragement so as to ensure an equal access to fair treatment and career opportunities. In addition, the Group has formulated its own health and safety policies, intensified safety training for employees, carried out routine safety patrols and actively pushed forward with relevant management system building for the purpose of creating a safe working environment for its employees, achieving a work-life balance for its employees through diverse activities.

With great emphasis on career development of its employees, the Group is committed to creating diversified and comprehensive development channels for its employees by offering a series of training programs and regular lectures on safety and health through its own Lesso College.

CUSTOMER AND SUPPLIER

China Lesso has strived to maintain uninterrupted communications with its suppliers for win-win results based on the procurement principles of fairness, openness and impartiality. The Group has put in place a “Supplier Management Code” and conducts regular performance evaluation of its suppliers. In addition, the Group has formulated a management system, a reporting process and set up a management team against malpractices in an effort to oversee behaviour of all its employees and protect the interests and rights of the Company and its shareholders. With respect to customer services

SHARE OPTION SCHEME (Continued)

A share option scheme (the “Share Option Scheme”) was conditionally approved by resolutions of the Shareholders on 14 May 2010 (the “Adoption Date”) for the purpose of providing incentives and rewards to eligible participants who contribute to the success of the Group’s operations and the summary of terms of such Share Option Scheme are disclosed in the Company’s prospectus dated 9 June 2010. No share options have been granted under the Share Option Scheme since its adoption.

Eligible participants of the Share Option Scheme (“Eligible Persons”) include (a) any executive director of, manager of, or other employee holding an executive, managerial, supervisory or similar position in any member of the Group, any full-time or part time employee, or a person for the time being seconded to work full-time or part-time for any member of the Group; (b) a director or proposed director (including an independent non-executive director) of any member of the Group; (c) a direct or indirect shareholder of any member of the Group; (d) a supplier of goods or services to any member of the Group; (e) a customer, consultant, business or joint venture partner, franchisee, contractor, agent or representative of any member of the Group; (f) a person or entity that provides design, research, development or other support or any advisory, consultancy, professional or other services to any member of the Group; and (g) an associate of any of the persons referred to in paragraphs (a) to (c) above.

The total number of Shares which may be issued upon exercise of all options to be granted under the Share Option Scheme and any other schemes of the Group shall not in aggregate exceed 300,000,000 Shares, representing 9.67% of the issued Shares as at 31 December 2019. The maximum number of Shares issued and to be issued upon the exercise of the options granted to any Eligible Persons (including exercised and outstanding options) in any 12-month period share not exceed 1% of thmber of 1(xlts who cmber)y8 nl, not exerc2 -1.4441(of)bscri eci ett2pr res shall not of less thanci eciever if Boarhighese pa: (a) Boarno1.4al value of a Share; (b) Boarclosing r res of a Share of stated in the Stock Exchange’s daily quotations sheee pn the offer date; and (c)

SHARE OPTION SCHEME (Continued)

…p Æ Œ£ƒ •

The Share Option Scheme shall be valid and effective for a period of 10 years commencing on the Adoption Date. An offer of the grant of a share option shall remain open for acceptance by the Eligible Person concerned for a period of 28 days from the date of the Board approving the grant of the share options (the "Offer Date") provided that no such grant of an option may be accepted after the expiry of the effective period of the Share Option Scheme. An option shall be deemed to have been granted and accepted by the Eligible Person and to have taken effect when the duplicate offer letter comprising acceptance of the offer of the Option duly signed by the grantee together with a remittance in favour of the Company of HK$1 by way of consideration for the grant thereof is received by the Company on or before the date upon which an offer of an option must be accepted by the relevant Eligible Person, being a date not later than 28 days after the Offer Date. Such remittance shall in no circumstances be refundable.

OPINION

We have audited the consolidated financial statements of China Lesso Group Holdings Limited (the "Company") and its subsidiaries (the "Group") set out on pages 86 to 221, which comprise the consolidated statement of financial position as at 31 December 2019, and the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

¢ A Š 2 è • 1 õ K 86 221 + Y • 7 L ç « › p Þ " ® ! € ˜ n ® ! ™ • ¿ I • n ® ! € ˜ n « ™ • Y] ¥ Ì Œ d ä] ¥ Ì Œ < õ 2019 Ë 12 Ü 31 Ú Y] ¥ Ì K 1 Œ ~ Ú Ú ß Ë Y] ¥ & B ¿ I ü Œ & × B Œ e] ¥ Æ B Œ q] ¥ $ – t Ž Œ d ø ¿] ¥ Ì Œ • W d ô 6 A ? f

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2019, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSAs") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the consolidated financial statements section of our report. We are independent of the Group in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the consolidated financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated financial statements.

Provision for impairment of trade and bills receivables and loan receivables *q ø Ð × › ° ¿ C ½ q Ð × > › Y ¯ = a ê*	
At 31 December 2019, the Group had trade and bills receivables of RMB3,259,456,000, net of provision for impairment of RMB237,226,000, and loan receivables of RMB376,286,000, net of provision for impairment of RMB190,677,000, which in aggregate accounted for 8.91% of the total assets. The assessment of impairment of such trade and bills receivables and loan receivables was considered to be a matter of most significance as it required the application of judgement and use of subjective assumptions by management. õ 2019 Ë 12 Ü 31 Ú d n « Y q ø Ð × › ° ¿ C ½ * & = ‰[O Æ 3,259,456,000 ‰Ô ð ¯ = a ê [O Æ 37,226,000© ˜ ˜ q X d q Ð × > › * & = ‰[O Æ 76,286,000© d * & = ‰Ô ð ¯ = a ê [O Æ190,677,000 © ˜ ˜ q X d ¥ • & * < X Y 8.91% f _ õ q ø Ð × › ¿ C ½ q Ð × > › Y ¯ = Y ê M # 4 * : Ù ¿ 4 \ ð H ÿ £ d B —V ‰ð Y + ° f HKFRS 9 requires that the impairment of financial assets should be measured by "expected credit loss" ("ECL") model. In order to measure the impairment of trade and bills receivables and loan receivables under HKFRS 9, management should use judgement, assumptions and estimation techniques in aspects such as judging significant increase in credit risk, estimating the parameters for measuring ECL and determining the forward-looking adjustments. ð ¥ Ì S _ ÆK 9 î • › d – D * Y ¯ = Ð ø˜ k , ¦ f & ™k , ¦ r f & ™| è Ž f ‰ ì ½ 0 ¥ Ì S _ ÆK 9 î Ž q ø Ð × › ° ¿ C ½ q Ð × > › Y ¯ = d M # 4 Ð õ µ Ù &€ ½ 1 ¦ r , ^ } 7 # * : Ù e 1 Ž k , r f & Y p * ¿ > › Ã ü Ì Æ• 6 \ : Ù e ÿ £ , Ù , f	(i) Evaluated and tested the effectiveness of the design and implementation of key controls relating to approval, post approval monitoring, the credit grading management, and loan impairment assessment. Note:

(a) In accordance with the Company Law of PRC, each of the Company's subsidiaries registered in PRC is required to appropriate 10% of the annual statutory profit after tax (after offsetting any prior years' losses) determined in accordance with generally accepted accounting principles in PRC to the statutory reserve until the balance of the reserve fund reaches 50% of its registered capital. The statutory reserve can be utilised to offset prior years' losses or to increase capital, provided that the remaining balance of the statutory reserve is not less than 25% of the registered capital.

(b) Capital reserve mainly represented the difference between the consideration and the book value of the share of the net assets acquired in respect of the acquisition of non-controlling interests.

These consolidated financial statements have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") (which include all Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards ("HKASs") and Interpretations) issued by the Hong Kong Institute of Certified Public Accountants, accounting principles generally accepted in Hong Kong and the disclosure requirements of the Hong Kong Companies Ordinance. They have been prepared under the historical cost convention, except for investment properties, other financial assets and derivative financial instruments which have been measured at fair value. These consolidated financial statements are presented in Renminbi and all values are rounded to the nearest thousand except when otherwise indicated.

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES (Continued)

2.2 6 A ¿ Þ £ + ° € ƒ •

HKFRS 16 (Continued)

The Group has adopted HKFRS 16 using the modified retrospective method with the date of initial application of 1 January 2019. Under this method, the standard has been applied retrospectively with the cumulative effect of initial adoption as an adjustment to the opening balance of retained profits at 1 January 2019, and the comparative information for 2018 was not restated and continued to be reported under HKAS 17 and related interpretations.

(a) New definition of a lease

Under HKFRS 16, a contract is, or contains, a lease if the contract conveys a right to control the use of an identified asset for a period of time in exchange for consideration. Control is conveyed where the customer has both the right to obtain substantially all of the economic benefits from use of the identified asset and the right to direct the use of the identified asset. The Group elected to use the transition practical expedient allowing the standard to be applied only to contracts that were previously identified as leases applying HKAS 17 and HK(IFRIC)-Int 4 at the date of initial application. Contracts that were not identified as leases under HKAS 17 and HK(IFRIC)-Int 4 were not reassessed. Therefore, the definition of a lease under HKFRS 16 has been applied only to contracts entered into or changed on or after 1 January 2019.

(b) As a lessee — Leases previously classified as operating leases (Continued)

Impact on transition (Continued)

For the leasehold land and buildings that were held to earn rental income and/or for capital appreciation previously included in investment properties and measured at fair value, the Group has continued to include them as investment properties at 1 January 2019. They continue to be measured at fair value applying HKAS 40.

For the leases previously accounted for as operating leases and entered into for earning sublease rental income, the related right-of-use assets of the head leases amounting to RMB48,080,000 were measured at fair value at 1 January 2019, and have been accounted for and classified as investment properties applying HKAS 40 from that date.

The Group has used the following elective practical expedients when applying HKFRS 16 at 1 January 2019:

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

2.4 ô 6 A ?

INVESTMENTS IN ASSOCIATES AND JOINT VENTURES

õ L ®! ¿ ¥ † 8 Y ³

An associate is an entity in which the Group has a long term interest of generally not less than 20% of the equity voting rights and over which it is in a position to exercise significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies.

BUSINESS COMBINATIONS AND GOODWILL

8 ¥ ; ¿ ‘

Business combinations are accounted for using the acquisition method. The consideration transferred is measured at the acquisition-date fair value which is the sum of the acquisition-date fair values of assets transferred by the Group, liabilities assumed by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree that are present ownership interests and entitle their holders to a proportionate share of net assets in the event of liquidation either at fair value or at the proportionate share of the acquiree's identifiable net assets. All other components of non-controlling interests are measured at fair value. Acquisition-related costs are expensed as incurred.

RELATED PARTIES

A party is considered to be related to the Group if:

(a) the party is a person or a close member of that person's family and that person

(i) has control or joint control of the Group;

(ii) has significant influence over the Group; or

(iii) is a member of the key management personnel of the Group or of a parent of the Group;

or

(b) the party is an entity where any of the following conditions applies:

(i) the entity and the Group are members of the same group;

(ii) one entity is an associate or joint venture of the other entity (or of a parent, subsidiary or fellow subsidiary of the other entity);

(iii) the entity and the Group are joint ventures of the same third party;

(iv) one entity is a joint venture of a third entity and the other entity is an associate of the third entity;

(v) the entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group;

(vi) the entity is controlled or jointly controlled by a person identified in (a);

(vii) a person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity); and

(viii) the entity, or any member of a group of which it is a part, provides key management personnel services to the Group or to the parent of the Group.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.4 ô 6 A ? € ƒ •

PROPERTY, PLANT AND EQUIPMENT AND DEPRECIATION

J 8 e @ Ò ¿ £ ê ˜ ±

Property, plant and equipment, other than construction in progress, are stated at cost less accumulated depreciation and any impairment losses. The cost of an item of property, plant and equipment comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use.

ð ¯ ˆ û . d J 8 e @ Ò ¿ £ ê 2 Ó I ¯] ± ¿ , ¯ = f & • * f J 8 e @ Ò ¿ £ ê ° f Y Ó I < I ...o ¿ 4 * ˆ õ Ý › \ Ä Y 6 * K 1 ¿ ® Ã þ * [Y , \ Ÿ Ó I f

Expenditure incurred after items of property, plant and equipment have been put into operation, such as repairs and maintenance, is normally charged to profit or loss in the period in which it is incurred. In situations where the recognition criteria are satisfied, the expenditure for a major inspection is capitalised in the carrying amount of the asset as a replacement. Where significant parts of property, plant and equipment are required to be replaced at intervals, the Group recognises such parts as individual assets with specific useful lives and depreciates them accordingly.

J 8 e @ Ò ¿ £ ê ° f ³] 6 * * [Y Õ € 7 ½ j L ¿ - n • d S › õ I * [, œ & B « Ô ð f J • D L ¥ ½ © z _ d } è _ Y š Õ 6 õ * * & = • I · ‰ • I f J J 8 e @ Ò ¿ £ ê Y ô Å ± ² › , • I d I « 6 ½ © Å ± ‰ Þ $ › 4 \ Ë , Y H 9 * ¿ ´ Ð d ± f

Depreciation is calculated on the straight-line basis to write off the cost of each item of property, plant and equipment to its residual value over its estimated useful life. The principal annual rates used for this purpose are as follows:

INVESTMENT PROPERTIES

³ J 8

Investment properties are interests in land and buildings (including the leasehold property held as a right-of-use asset (2018: leasehold property under an operating lease) which would otherwise meet the definition of an investment property) held to earn rental income and/or for capital appreciation, rather than for use in the production or supply of goods or services or for administrative purposes; or for sale in the ordinary course of business. These include land held for a currently undetermined future use and property that is being constructed or developed for future use as investment property. Such properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at fair value, which reflects market conditions at the end of the reporting period.

INTANGIBLE ASSETS (OTHER THAN GOODWILL)

Ì – *€ ‘ ð . •

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is the fair value as at the date of acquisition. The useful lives of intangible assets are assessed to be either finite or indefinite. Intangible assets with finite lives are subsequently amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at each financial year end.

a #€ 2019 Ë 1 Ü 1 Ú Î G \ •€ ƒ •

Group as a lessee (Continued)

(b) Lease liabilities

Lease liabilities are recognised at the commencement date of the lease at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for termination of a lease, if the lease term reflects the Group exercising the option to terminate. The variable lease payments that do not depend on an index or a rate are recognised as an expense in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in lease payments (e.g., a change to future lease payments resulting from a change in an index or rate) or a change in assessment of an option to purchase the underlying asset.

Group as a lessor

When the Group acts as a lessor, it classifies at lease inception (or when there is a lease modification) each of its leases as either an operating lease or a finance lease.

I « * ‰ a [

...I « * ‰ a [d Æõ a # š • Û € Ð $ a # L Û • Z I Ê ° a # ± ‰¾ a # Ð D a # f

Leases in which the Group does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. When a contract contains lease and non-lease components, the Group allocates the consideration in the contract to each component on a relative stand-alone selling price basis. Rental income is accounted for on a straight-line basis over the lease terms and is included in revenue in profit or loss due to its operating nature. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

LEASES (APPLICABLE BEFORE 1 JANUARY 2019)

a #€ õ 2019 Ë1 Ü1 Ú Ã G \ •

Finance leases

Leases that transfer substantially all the rewards and risks of ownership of assets to the Group, other than legal title, are accounted for as finance leases. At the inception of a finance lease, the cost of the leased asset is capitalised at the present value of the minimum lease payments and recorded together with the obligation, excluding the interest element, to reflect the purchase and financing. Assets held under capitalised finance leases, including prepaid land lease payments under finance leases, are included in property, plant and equipment, and depreciated over the shorter of the lease terms and the estimated useful lives of the assets. The finance costs of such leases are charged to profit or loss so as to provide a constant periodic rate of charge over the lease terms.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.4 ô 6 A ? € ƒ •

DERECOGNITION OF FINANCIAL ASSETS (Continued)

^ ß ½ © – D * € ƒ •

On derecognition of a financial asset other than in its entirety, the Group allocates the previous carrying amount of the financial asset between the part it continues to recognise, and the part it no longer recognises on the basis of the relative fair values of those parts on the date of the transfer. The difference between the carrying amount allocated to the part that is no longer recognised and the sum of the consideration received for the part no longer recognised and any cumulative gain or loss allocated to it that had been recognised in other comprehensive income is recognised in profit or loss. A cumulative gain or loss that had been recognised in other comprehensive income is allocated between the part that continues to be recognised and the part that is no longer recognised on the basis of the relative fair values of those parts.

IMPAIRMENT OF FINANCIAL ASSETS

– D * ¯ =

The Group recognises an allowance for expected credit losses (“ECLs”) for all debt instruments not held at FVTPL. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

I « 1 (¢ 2 ® ª =] & B Y Ô Þ À ˆ H ½ © k , ¦ r f &€˜ k , ¦ r f & ™ a ê f k , ¦ r f & W ? õ ì ½ ¥ Ò Ð ù Y ¥ Ò $ – t Ž ~ I « k , × _ Y Ô Þ $ – t Ž ˜ œ Y ¨ X d (2 Ÿ • a Þ ¼ ç ; h $ f k , $ – t Ž Z < / Ô 5 ê å Ü Ð ¥ Ò â › Ô ^ Y I ü ¦ r # v £ D Ô { Y $ – t Ž f

General approach

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12 months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.4 ô 6 A ? € ƒ •

IMPAIRMENT OF FINANCIAL ASSETS (Continued)

– D * ¯ =€ ƒ •

General approach (Continued)

At each reporting date, the Group assesses whether the credit risk on a financial instrument has increased significantly since initial recognition. When making the assessment, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and considers reasonable and supportable information that is available without undue cost or effort, including historical and forward-looking information.

S › Ù , € ƒ •
õ ¢ S Ú , d I « Y ‹ • ½ © – D ^ H Y ¦ r , ^ J I } 7 # f õ † Y Û d I « Z õ S Ú , – D ^ H ï [< Ò Y , ^ ~ ‹ • ½ © Ú , – D ^ H ï [< Ò Y , ^ † â 0 d (ý G Ô Þ á ² ù ” @ Ó I Ð @ b C { Y ¥ # Õ 5 Ø d < Ý & ¿ Ã ü Ì Ø f

The Group considers a financial asset in default when contractual payments are 5 years past due. However, in certain cases, the Group may also consider a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

IMPAIRMENT OF FINANCIAL ASSETS (Continued)

– D * ¯ =€ ƒ •

Simplified approach

For trade and bills receivables and contract assets that do not contain a significant financing component or when the Group applies the practical expedient of not adjusting the effect of a significant financing component, the Group applies the simplified approach in calculating ECLs. Under the simplified approach, the Group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

· Ù , 1 (Ì ^ } D Ó ± Ð l « Ð \ Æ • Ù , ” Æ } D Ó ± B ¤ Y q ø Ð × › ° ¿ C ½ q ¥ Ò * þ d l « Ð \ · Ù , Q k , ¦ r f & f ì ½ · Ù , d l « (Ì Û 3 ¦ r , ˆ Y · d þ õ ¢ S Ú , ì ½ Æ H À ƒ , k , ¦ r f & ½ © f & a ê f l « Š ì ½ l Ý & ¦ r f & ¾ m a ê l ì d (1 À [¿ ¾ ö ¤ Y $ › Ã ü Ì ª o * Æ f

For trade and bills receivables that contain a significant financing component, the Group chooses as its accounting policy to adopt the simplified approach in calculating ECLs with policies as described above.

Subsequent measurement

I Ž

The subsequent measurement of financial liabilities depends on their classification, as described below:

– D À Y I Ž V ÷ h ± ó þ › j

Financial liabilities at fair value through profit or loss

2 ®ª =] & B Y – D À

Financial liabilities at FVTPL include financial liabilities held for trading and financial liabilities designated upon initial recognition as at FVTPL.

2 ®ª =] & B Y – D À < 5 * o - Y – D À ¿ õ ‹ • ½© Û 8 › ‰2 ®ª =] & B Y – D À f

Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships as defined by HKFRS 9. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

REVENUE RECOGNITION (Continued)

×] ½ © € ƒ •

Revenue from contracts with customers (Continued)

(b) Construction services

Revenue from the provision of construction services is recognised over time, using an input method to measure progress towards complete satisfaction of the service, because the Group's performance creates or enhances an asset that the customer controls as the asset is created or enhanced. The input method recognises revenue based on the proportion of the actual costs incurred relative to the estimated total costs for satisfaction of the construction services.

Share-based payments (Continued)

Where an equity-settled award is cancelled, it is treated as if it had vested on the date of cancellation, and any expense not yet recognised for the award is recognised immediately. This includes any award where non-vesting conditions within the control of either the Group or the employee are not met. However, if a new award is substituted for the cancelled award, and is designated as a replacement award on the date that it is granted, the cancelled and new awards are treated as if they were a modification of the original award, as described in the previous paragraph.

BORROWING COSTS

> › Ó l

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, i.e., assets that necessarily take a substantial period of time to get ready for their intended use or sale, are capitalised as part of the cost of those assets. The capitalisation of such borrowing costs ceases when the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs capitalised. All other borrowing costs are expensed in the period in which they are incurred. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

ESTIMATION UNCERTAINTY

” ü æª o

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below.

Þ ë õ S , K ” ü æª o Y J 8 ¿ I ü ô 8 U Y ô ÿ £ d À ¯ 6 ¬ ç h S H Ì A Ë « * ¿ À * & = $ } Æ Y } , ˆ d õ h Ö Þ Ô 1 f

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (Continued)

ESTIMATION UNCERTAINTY (Continued)

Impairment of goodwill, brand name and operating concession rights

The Group determines whether goodwill, brand name and operating concession rights with indefinite useful lives are impaired at least on an annual basis. This requires an estimation of the value in use of the cash-generating units to which the goodwill, brand name and operating concession rights are allocated. Estimating the value in use requires the Group to make an estimation of the expected future cash flows from the cash-generating units and also to choose a suitable discount rate in order to calculate the present value of those cash flows. At the end of the reporting period, the carrying amounts of goodwill, brand name and operating concession rights were RMB398,589,000 (2018: RMB363,133,000), RMB110,520,000 (2018: RMB110,520,000) and RMB24,550,000 (2018: RMB24,550,000), respectively. Further details are disclosed in note 16 to the consolidated financial statements.

Provision of ECL for contract assets, trade and bills receivables, other receivables and loan receivables

The Group uses a provision matrix to calculate ECLs for contract assets, trade and bills receivables, other receivables and loan receivables. The provision rates are based on the invoice date for groupings of various customer segments that have similar loss patterns (i.e., by geography, product type, customer type and rating, and coverage by letters of credit and other forms of credit insurance).

The provision matrix is initially based on the Group's historical observed default rates. The Group will calibrate the matrix to hmethecess7 scn /Gq /Tq /Tq /Tq /Tq /T

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (Continued)

3. ô 6 : Ù ¿ € ƒ •

ESTIMATION UNCERTAINTY (Continued)

" ü æª o€ ƒ •

Provision of ECL for contract assets, trade and bills receivables, other receivables and loan receivables (Continued)

The assessment of the correlation among historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and forecast economic conditions. The Group's historical credit loss experience and forecast of economic conditions may also not be representative of a customer's actual default in the future. The information about the ECLs on the Group's contract assets, trade and bills receivables, other receivables and loan receivables is disclosed in notes 23, 24, 25 and 20 to the consolidated financial statements, respectively.

Provision for obsolete and slow-moving inventories

The Group reviews the aging analysis of its inventories at the end of each reporting period, and makes provision for obsolete and slow moving inventory items identified that are no longer suitable for use/sale. Management estimates the net realisable value for such inventories based primarily on the latest invoice prices and current market conditions. At the end of the reporting period, an accumulated provision for obsolescence of RMB196,533,000 (2018: RMB190,842,000) has been recognised for inventories.

Performance obligations
Information about the Group's performance obligations is summarised below:

5 Ò ª ,
Þ ë l « 5 Ò ª , Y Ø ? ½ h j

Sale of goods
The performance obligation is satisfied upon delivery of the goods and payment is generally due within 30 to 360 days from delivery, except for new customers, where payment in advance is normally required.

V / ¬ Ü
l « õ t ¬ Û 5 ª , d ù › S › ¯ t ¬ 30 360 Â « Q , d " - Ò S › ² k ‹ ù › f

Renovation, installation and engineering services
The performance obligation is satisfied over time as services are rendered and payment is generally due within 30 days from the date of billing. A certain percentage of payment is retained by customers until the end of the retention period as the Group's entitlement to the final payment is conditional on the satisfaction of the service quality by the customers over a certain period as stipulated in the contracts.

13. LEASES

13. a

THE GROUP AS A LESSEE

The Group has lease contracts for various items of leasehold land, plants and buildings, motor vehicles and other equipment used in its operations. For leasehold land classified as prepaid land lease payments previously, lump sum payments were made upfront to acquire the leasehold land from the owners with lease periods of 50 years, and no ongoing payments will be made under the terms of these land leases. For other leased lands classified as operating lease previously, they generally have lease terms between 20 and 50 years. Lease of plants and buildings generally have lease terms between 1 and 17 years, while motor vehicles and other equipment generally have lease terms between 1 and 3 years. Generally, the Group is restricted from assigning and subleasing the leased assets outside the Group. There are several lease contracts that include extension and termination options and variable lease payments, which are further discussed below.

Other key assumptions for the value in use calculation relate to the estimation of cash inflows/outflows which include budgeted sales and gross margin. Such estimation is based on the units' past performance and management's expectations for the market development. Management believes that any reasonably possible change in any of these assumptions would not cause the carrying amounts of each CGU to exceed their recoverable amounts respectively.

Based on the value in use calculation of GZEP, impairment loss amounting to RMB29,100,000 (2018: Nil) is recognised on the relevant goodwill in respect of the current year, which arose from the expected decline in the demand of environmental engineering services. Except for goodwill of GZEP, there are no impairment of any other CGUs containing goodwill, brand name and operating concession rights with indefinite useful lives (2018: RMB372,000).

17. INTERESTS IN ASSOCIATES (Continued)

Note:

(1) During current year, the Group acquired 20% equity interest of Jiangyin Yongqing Water Purifying Agent Co., Ltd. from independent third parties at total consideration of RMB2,160,000.

(2) During the current year, the Group acquired these associates through business combinations. Further details are disclosed in note 37 to the consolidated financial statements.

(3) It is considered that the Group has significant influence over these companies because the Group has a director in the board of directors of these companies.

Xingfa Aluminium Holdings Limited ("Xingfa Aluminium") and Foshan Hechuang Yingke Real Estate Development Co., Ltd. ("Hechuang Yingke"), which are considered material associates of the Group, are engaged in the manufacture and sale of aluminium profiles and property development, respectively, and are accounted for using the equity method.

20. LOAN RECEIVABLES (Continued) 20. Ð × > › € ƒ •

(A) FINANCE LEASE RECEIVABLES (Continued) (A) D a # Ð × › ° € ƒ •

The following is a credit quality analysis of these finance lease receivables:

ø h ‰D a # Ð × › ° Y ¦ r / o ± j

		2019 RMB'000 [O Æw ©	2018 RMB'000 [O Æw ©
Not past due	J C ,	21,731	263,843
Overdue	Š C ,	155,221	–
		176,952	263,843

The receivables are secured by assets leased under finance leases and cash deposits (where applicable).

Ð × › ° ø D a # * ¿ $ – 2 –€ ½ G \ • * ‰ê å f

Cash deposits from finance lease customers are collected upfront based on certain percentage of the entire value of the lease contracts. When the lease contracts expire and all related liabilities and obligations are fulfilled by the customers, the cash deposit will be returned in full. The balance of the cash deposit can also be used to settle any outstanding lease receivables for the corresponding lease contract. The collected cash deposits of RMB21,310,000 (2018: RMB25,613,000) have been included in "other long-term payables" in the consolidated statement of financial position.

At 31 December	õ 12 Ü 31 Ú		4,584	21,855

For the contract assets arising from renovation and installation works and environmental engineering services, an impairment analysis is performed at each reporting date using a provision matrix to measure expected credit losses. The provision rates for the measurement of the expected credit losses of the contract assets are based on those of the trade and bills receivables as the contract assets and the trade and bills receivables are from the same customer bases. The provision rates of contract assets are based on the invoice date of trade and bills receivables for groupings of various customer segments with similar loss patterns (i.e., by geographical region, product type, customer type and rating, and coverage by letters of credit or other forms of credit insurance). The calculation reflects the probability-weighted outcome, the time value of money and reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions.

The Group's major customers are independent distributors, civil contractors, property developers, utility companies and municipalities in China. Depending on the market condition, marketing tactics and relationships with the customers, the Group's trading terms with its independent distributors may change from settlement on an advance receipt basis to giving a credit period of generally one month or more, if appropriate. The Group does not have a standardised and universal credit period granted to the non-distributor customers. The credit period of an individual non-distributor customer is considered on a case-by-case basis and is set out in the sales contracts, as appropriate. Sales to small, new, or short-term customers are normally expected to be settled on an advance receipt basis or shortly after the goods delivery. No credit term period is set by the Group for small, new and short-term customers.

(a) On 6 May 2019, the Group's wholly owned subsidiary entered into a convertible loan facilities agreement with ICBC International Investment Management Limited in the aggregate principal amount of US$100,000,000 (approximately equivalent to RMB684,025,000) (the "Convertible Loans"). The Convertible Loans bear interest at the rate of 3.4% plus LIBOR per annum. The Group drew down US$60,000,000 (approximately equivalent to RMB410,415,000) on 22 May 2019 and US$40,000,000 (approximately equivalent to RMB279,489,000) on 29 November 2019. The maturity date is 21 May 2022 and 28 November 2022, respectively.

(b) The convertible loans contain two components, a debt and equity components. The initial fair value of the two components was determined based on gross proceeds at drawdown. The initial fair value less allocated transaction costs of the debt component were estimated to be US$55,799,000 (approximately equivalent to RMB381,681,000) and US$36,982,000 (approximately equivalent to RMB258,432,000) as at the drawdown date of using the Monte Carlo Model and Binomial Option Pricing Model, taking into account the terms and conditions of the convertible loans. In subsequent periods, the debt component is measured at amortised cost using effective interest rate method. The effective interest rate of the debt component is 7.70% per annum. The residual amount less allocated transaction costs representing the value of the equity component of US$4,001,000(approximately equivalent to RMB27,605,000), is included in convertible loans equity reserve.

32. DEFERRED TAX (Continued)

Pursuant to the PRC Corporate Income Tax Law, a 10% withholding tax is levied on dividends declared to foreign investors from the foreign investment enterprises established in China. The requirement is effective from 1 January 2008 and applies to earnings after 31 December 2007. A lower withholding tax rate may be applied if there is a tax treaty between China and the jurisdictions of the foreign investors. The applicable rate for the Group is 5%. The Group is therefore liable for withholding taxes on dividends distributed by those subsidiaries established in China in respect of their earnings generated from 1 January 2008.

At the end of the reporting period, the Group has not recognised deferred tax liabilities of RMB374,897,000 (2018: RMB350,709,000) in respect of temporary differences relating to the undistributed profits of subsidiaries, amounting to RMB7,497,947,000 (2018: RMB7,014,180,000), that would be payable on the distribution of these retained profits as the Company controls the dividend policy of these subsidiaries and it is probable that these profits will not be distributed in the foreseeable future.

33. DEFERRED INCOME

Deferred income represents government grants received by the Group as financial subsidies for the construction of new factory premises in Changchun, Daqing, Hubei and Hunan and rental income received in advance from certain of the Group's employees for leasing the staff quarters.

The government grants are released to profit or loss over the expected useful lives of the relevant premises by equal annual instalments, while rental income received in advance is recognised on the straight-line basis over the respective lease terms.

40. RELATED PARTY TRANSACTIONS AND BALANCES (Continued)

(A) THE GROUP'S MATERIAL TRANSACTIONS WITH RELATED PARTIES DURING THE YEAR (Continued)

Note:

(i) Sale of goods and services to related companies were made with reference to the prices and conditions offered by the Group to third-party customers.

(ii) Utilities were provided by related companies at cost.

(iii) Rental expenses were based on mutually agreed terms.

(iv) Purchase of materials from related companies were made based on mutually agreed terms.

(v) Purchase of machinery, equipment and electronic accessories and other intangible assets from related companies were made with reference to the prices and conditions offered by the related companies to their third-party customers.

(vi) Licensing trademarks to related companies were conducted based on mutually agreed terms.

(vii) Hotel expenses were based on mutually agreed terms.

(viii) Properties including office premises, cafeteria, workshops, warehouses and yacht were leased to the Group based on mutually agreed terms.

(ix) Advisory services were provided by related companies based on mutually agreed terms.

(x) Purchase of goods and equipment from associates were made on normal commercial terms negotiated on an arm's length basis by the parties with reference to the prevailing market prices.

(xi) Services were provided by a joint venture based on mutually agreed terms.

These related party transactions constitute connected transactions or continuing connected transactions as defined in Chapter 14A of the Listing Rules but are exempted from complying with the disclosure requirements under the Listing Rules.

42. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's principal financial instruments comprise borrowings and cash and short-term deposits. The main purpose of these financial instruments is to raise finance for the Group's operations. The Group has various other financial assets and liabilities such as trade and other receivables and trade and other payables, which arise directly from its operations.

The main risks arising from the Group's financial instruments are interest rate risk, foreign currency risk, credit risk and liquidity risk. As the Group's exposure to these risks is kept to a minimum, the Group has not used any derivatives and other instruments for hedging purposes. The Group does not hold or issue derivative financial instruments for trading purposes. The Board reviews and agrees policies for managing each of these risks and they are summarised below.

INTEREST RATE RISK

In respect of the floating interest rate instruments, the Group is

42. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

42. – D , ˆ M # f z ¿ A € ƒ •

FOREIGN CURRENCY RISK

. Æ, ˆ

The Group's main businesses are located in China and most of the transactions are conducted in Renminbi. Most of the Group's assets and liabilities are denominated in Renminbi, except for certain cash and bank deposits, trade and bills receivables and borrowings denominated in HK dollar and US dollar. The Group has not hedged its foreign exchange rate risk.

42. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

CREDIT RISK

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Group is exposed to credit risk in relation to its trade and bills receivaMd

42. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

42. – D , ˆ M # f z ¿ A €ƒ •

CREDIT RISK (Continued)

The Group's debt instruments at FVTOCI comprised solely of quoted bonds that are graded in the top investment category and, therefore, are considered to be low credit risk investments.

Bank deposits are mainly placed with state-owned financial institutions and reputable banks which are all high-credit-quality financial institutions.

The Group considers the probability of default upon initial recognition of financial assets and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period. To assess whether there is a significant increase in credit risk the Group compares the risk of a default occurring on the asset as at the reporting date with the risk of default as at the date of initial recognition. It considers available reasonable and supportive forward-looking information.

Maximum exposure and year-end staging

The tables below show the credit quality and the maximum exposure to credit risk based on the Group's credit policy, which is mainly based on invoice date unless other information is available without undue cost or effort, and year-end staging classification as at the end of each reporting period. The amounts presented are gross carrying amounts for financial assets and the exposure to credit risk for the financial guarantee contracts.

CAPITAL MANAGEMENT

The primary objectives of the Group's capital management are to safeguard the Group's ability to continue as going concern and to maintain reasonable capital ratios in order to support its business and maximise shareholders' value.

The Group manages its capital structure and makes adjustments to it in light of changes in economic conditions. In order to optimise the debt and equity balance, the Group may adjust the dividend payment to shareholders, return capital to shareholders, issue new shares or new debts or the redemption of existing debts. No changes were made in the objectives, policies or processes for managing capital during the year.

The Group monitors capital using a net debt to equity ratio, which is net debt divided by capital. Net debt includes borrowings, convertible loans and lease liabilities less cash and bank deposits. Capital represents the total equity.

The Group's strategy is to maintain the net debt to equity ratio at a healthy level in order to support its businesses. The principal strategies adopted by the Group include, without limitation, reviewing future cash flow requirements and the ability to meet debt repayment schedules when they fall due, maintaining a reasonable level of available banking facilities and adjusting investment plans and financing plans, if necessary, to ensure that the Group has a reasonable level of capital to support its business. The net debt to equity ratios, at the end of the reporting period are as follows:

The above table lists the Company's subsidiaries which, in the opinion of the directors, principally affected the results for the year or formed a substantial portion of the Group's net assets. To give details of other subsidiaries would, in the opinion of the directors, result in particulars of excessive length.

Forward-looking statements

This report contains forward-looking statements. These forward-looking statements include, without limitation, statements related to revenue and earnings. The words “believe”, “intend”, “expect”, “anticipate”, “forecast”, “estimate”, “predict”, “is confident”, “has confidence” and similar expressions are also intended to represent forward-looking statements. These forward-looking statements are not historical facts. Rather, the forward-looking statements are based on the current beliefs, assumptions, expectations, estimates and projections of the directors and management of China Lesso about the businesses, industries and markets in which China Lesso operates.

These forward-looking statements are not guarantees of future performance and are subject to risks, uncertainties and other factors, some of which are beyond the Company’s control and are difficult to predict. Consequently, actual results could differ materially from those expressed, implied or forecasted in the forward-looking statements.

Reliance should not be placed on these forward-looking statements, which reflect only the views of the directors and management of China Lesso as at the date of this report only. The Company undertakes no obligation to publicly revise these forward-looking statements to reflect events or circumstances that arise after publication of this report.
